

Light Templates

Three light templates were retrieved from various time locks in the past three years. They significantly contributed to your ability to step into the consciousness of the 5th dimension on all levels of your being. These Light templates are so massive that they were retrieved in increments throughout a three year period. Every human on Earth benefits from these Light Templates at the level that they can receive and integrate them.

There is more yet to come. Each of these vast Light Templates contributed to a massive opening in the Sacred Heart consciousness in every human. These templates also provided a viable presence of the Holy Spirit. A transformation of the mental/emotional body continues to take place through the massive influxes of light, sound, and color codes.

The first Light Template brought a new awareness of self at the 5th-dimensional level. Those who are capable of receiving this template begin to realize that they are much more than an individual but are part of a vast collective consciousness that is in unity with the *All That Is*. The heart begins to open. Access to the Sacred Heart consciousness is available. You can then hold that 5th-dimensional consciousness stably for yourself, for humanity, and for the Earth.

The second Light Template is of the 6th dimension. It brought in the vast magnetics of Source energy. These magnetics began to alter the magnetic field of the Earth as well as of every human. This template enables you to start to draw to yourself the magnetics of the 10th Ray of Creation. The 10th Ray of Creation helps you to draw to yourself the 5th-dimensional reflections of yourself. This reflection comes to you through the 6th-dimensional magnetics of Source which pulls like to like.

The third Light Template came in through the 7th dimension. The 7th dimension is the last dimension where you have a physical body. This template provides the consciousness of the oversoul. It enables you to creatively flow in the present moment and create in more than one-dimensional sequence. The Element of Love enters through the 7th-dimensional Light Template and becomes a viable creative element. You begin to realize that this creative element is made usable through your mental/emotional body. The beginning increment of this massive 7th-dimensional Light Template was returned recently in 2018.
