

JOHN'S INTRODUCTION:

Welcome, all, to a special Easter celebration call with Yeshua. He recently contacted us about the importance of this day and will make us aware of the details as we go along. Joan, John, and Joe Jett will be present to contribute to the presentations.

Now, on November 11, 2011, or as we refer to it as 11-11-11, the Christed Matrix was returned to the center of the Earth. This was the first step in restoring Gaia to her former status as a Christed Planet.

The first seven years of that cycle were about fully seating this Matrix within the Earth as well as within the Sacred Hearts of all humans. Many of you gathered with us to celebrate of anniversary of the 11-11-11 on November 11, 2018. This is a follow-up call to that one.

Yeshua will join us this evening. He will talk about our next step in seating Christ Consciousness in the collective consciousness of all humans on Earth.

We suggest that you review the 2018 November session, which is posted on the front page of our website. There are also two articles about the Christed Matrix and also about the 5th, 6th, and 7th Dimensional Light Templates that were retrieved from the Time Locks in the last three years.

We are now entering the first year of a seven-year cycle which concerns the further activation of the Christed Matrix of Earth and humans. This seven-year sequence is about anchoring the Element of Love and Christ Consciousness within the human collective consciousness. This is what this call is all about tonight.

Joe Jett will now lead us in a meditation to visit the Christed Matrix in the Earth and in your Sacred Heart. We will then receive a very special message through Joan from Yeshua in his full Christed Presence.

When Yeshua is finished with his message, we suggest that you sit in the Energies for a few minutes.

This call will be posted on our website on Monday, so that you can download it and so that those who were not able to join us live can also download it. It will be posted under the Events Tab as well as on the front page of our website: joanandjohnwalker.com.

So, get into your special spot and Joe Jett will take us for a special Journey.

[4:14] **MEDITATION WITH JOE JETT:**

Greetings, everybody! Happy Easter!

Let's take a moment just to remember why we celebrate this day. 2000 years ago, Yeshua, after he was crucified, he was able to resurrect himself in three days. And actually he told us last year that many of us were there to assist him. It wasn't something that he did entirely by himself.

And he also told us that his mission was not complete at that point. He imprinted us, the human collective, with a brand of resurrection. But we are continuing this mission. And those of us who were called to this call tonight are here because he called us to assist in continuing this mission. And that is imprinting the Element of Love and the Christ Consciousness into the collective consciousness of humanity.

If we think about that, and just think about how sacred that is and what an honor and a privilege it is to be called to participate in this – and that might bring you into a feeling of reverence and awe, gratitude, respect, joy – whatever it is you're feeling.

Take a deep breath...

This call is open to the public, so some of you may be more adept at meditating and getting centered than others. Feel free to use your own tools, activate your Merkaba, whatever you can do to get yourself more centered.

But, take a deep, slow breath....

And take two or three slow, deep breaths. And this slows down the mind.....

And then, place your attention on the Sacred Heart. This is in the area of the Thymus, right below the neck. This is also called the Higher Heart chakra. Here is where the Christed Matrix has been placed in every human being on Earth on 11-11-11. And when we are done with tonight's call, you're going to be much more aware of it than you are right this moment.

So, take a deep breath. It's what we call a Sacred Heart Consciousness. And this is where we also access the Element of Love.

And call forth the Element of Love in the Sacred Heart.....

This is where we also hold Unity and Christ Consciousness from this moment forward.

So, now let's start moving our awareness down through the body into the center of our chest into the Heart center, where we experience Love for others, but more importantly, Love for yourself. It's very, very important to love, nurture, and respect and empower ourselves.

Take a deep breath in the Heart center.....

Now, move your awareness down to that area we call the Solar Plexus, right below the sternum.....

This is where we hold our will and our power. Just have an intention to align your will and power with the Will and the Power of Creator, Will and Power of Source.....

And continue moving your awareness down. And you're just bringing the Sacred Heart Consciousness down with you when you come – into the Sacral center, in the pubic area. And this is where we have a strong connection with the emotional body. Just bring the Element of Love into the Sacral center.

Now, below that in the base of the spine, in between the legs, is what we call the Root chakra. This is the root. And from here, this is where we ground ourselves. And so what we'd like you to do is just to imagine a grounding cord. This can be a root; it can be a golden shaft of Light, golden wire, whatever works for you -- into your Earth Star.

The Earth Star is a chakra beneath your feet. Just see a big ball of Light, Golden-White Light. And just ground into your Earth Star.....

Bring your awareness into your Earth Star.....

Now, we're going to use our Earth Star as a vehicle tonight, to descend into the Earth. You are not to try to send anything tonight. Tonight is all about receiving. We're going into the Christed Matrix, which is whole and complete. And all we need to do is just to receive and be in that state of reverence, of awe, of respect, appreciation, gratitude, Love, Joy..... Happy.....

So, now, as the Earth Star begins to descend, we're going to encounter some Beings that reside in the Earth. And they are here to assist with the Ascension of the Earth as well.

The first group we meet are the Telosians. Telosians are 5th Dimensional Beings who reside in the center of the Earth. As you see them, there may be a familiarity. You may encounter them in your sleep space. You may have stronger connections with them. Feel their consciousness, as it flows and joins you inside of your Earth Star. Now, they're going to be with us. This is a co-creation. So, they're going to come down with us on this Journey.

Let your Earth Star descend a little further... towards the center of the Earth.

And the next group are the Lemurians, the Ancient Ones. Now the Lemurians have been here since before the fall of consciousness, eons and eons and eons. 9th Dimensional frequency. And they reside here. And they hold the memories of when Earth was in a Christed state..... And as you feel their Energy merge into your Earth Star, it begins to awaken those memories within you.....

And then we go down a little farther and we encounter the Andarans. The Andarans hold a pure, unified Love Consciousness. The only thing they know is Love. Feel the pure Love, the Unity Consciousness streaming in, merging with you in your Earth Star.....

And then we go a little bit deeper. And we encounter the Luminaries. Now, the Luminaries don't actually reside in the Earth. But they visit quite often to help raise the frequency. But then they withdraw their Energies..... But on special occasions like this, they are happy to join. On very auspicious occasions, they merge their Energy into the Earth Star..... Very high Wisdom, very high Christed Energy.....

So take a deep breath.

You may take in these Energies, this Consciousness, as best you can.....

And then a little further ahead, you start to see a bright glow, a brilliant Golden-White Star Tetrahedron. This is the Christed Matrix that was placed back into the Earth on 11-11-11 to begin the process of restoring the Earth to her status as a Christed Planet.

Allow your Earth Star to be drawn right into the center of this Christed Matrix. Feel the Christed Consciousness, the Unity Consciousness. Feel the holiness, the reverence. See the Colors, the magnificent, brilliant, radiant Colors, many of which you've never seen before.

Feel the Energy flowing into your Earth Star, merging with all parts of you.

Take a deep breath.

Breathe in this Light, this Liquid Light, Love, Consciousness of Source/Creator.

Let it uplift you. Let it transform you. Let it awaken you to who you truly are.....

This Christed Matrix is the same Christed Matrix that is in your Sacred Heart. There are not two; there are not many; there is One. This is the Realm of Spirit. It doesn't follow the laws of physics; it's in many places at once.

Notice this Christed Matrix now radiating in your Sacred Heart.....

See the Golden-White Light streaming into the cells, illuminating the cells.....

Feel the Element of Love, as it streams out to various parts of your body, as it enters into your physical Heart and into your blood stream.....

Feel it uplifting your emotions, awakening your mental body, uplifting your mind...

Notice you're back in your body.....

still aware of the Christed Matrix in the center of the Earth, knowing it's the same Christed Matrix in your Sacred Heart, the same Unity Consciousness of Source.....

And feel the Element of Love streaming through.

Now, take a deep breath, and then call forth Yeshua and help Joan bring in Yeshua.

[18:45] **YESHUA MESSAGE THROUGH JOAN WALKER:**

Greetings, Beloveds, it is I, Yeshua.

I am honored and delighted to be with you this evening. This is such a special occasion!

Two things are happening to your consciousness and to your innate ability to hold a consciousness in a stable 5th Dimensional state. First of all, you have been relieved of an imprint that has been with you since my crucifixion. You no longer celebrate the crucifixion. This was a 3rd dimensional, archaic ritual, built in the consciousness of 3rd dimension: survival, dominance.

Now, we celebrate a new state of consciousness, a 5th Dimensional state of consciousness, configured in the Element of Love, configured in a sense of Unity, well-being, respect for everyone regardless of any religious beliefs, any doctrine, and holding to that unified expression of the Divine that is within every human being.

This is a celebration of a new state of consciousness making its way into the Earthly realm and into every human on the planet, regardless of when they choose to fully awaken. It's imprinted in their Heart, just as it is imprinted in yours.

I have called you together for a purpose, Beloveds. Never before has this been possible.

At the fall of consciousness, long ago, when the Christed Matrix was removed because the creation could no longer sustain it, it was becoming so dense, so split, that it could no longer exist as the denseness took hold. Many humans suffered through these times.

When I came 2000 years ago, there was a great deal of suffering, as is today in many regions. But through different awarenesses and different seedings of consciousness, different opportunities have been brought about by many teachers who have come to make a difference. Each one of you embodied to make a difference. And that's why you have been called together to come with me and imprint another state of consciousness.

This was not possible [earlier], because as the Earth declined in its frequency and its ability to hold certain ranges of consciousness, certain Time Locks were set in place on certain concepts, certain energetic configurations. And they all had different dimensional frequencies. In the last three years, there have been six retrievals made and unlocking all of certain Time Locks that relate specifically to the 5th, 6th, 7th Dimensions.

[24:18] Now, the first one that had to be opened and set in motion was the ability to maintain a 5th Dimensional frequency in a very stable, unified way within your consciousness 100% of the time. Now, humans are not there yet. But be aware that you vacillate within that 5th Dimensional frequency. And the percentage of time is directly related to your ability to navigate through stress, through trigger points that cause you to make choices within your emotional body and within your mental body, within the thoughts that you think and the feelings that you create from those thoughts. This is what happens when you choose a denser frequency range, either by the thoughts you think or the feelings that you consistently feel.

You do have the ability to have sovereignty in your body, in your mental-emotional body, by the choices that you make, WHEN you are conscious, when you stay aware.

And this is how you are changing humanity's consciousness, because you are part of humanity. You are changing the dynamics of the Earth, because you then resonate with the frequency range that is emanating from the center of the world, of the Earth, from that Christed Matrix. It takes the human and it takes the Earth consciousness to come together in Unity. The Earth, the physicality of Gaia, of Mother Earth, has to support your consciousness, and vice versa. They are dependent on each other.

You are the ones with the bodies, Dear Ones -- So what you are willing and capable of emanating, of transmitting into the collective consciousness, just by being who you are. We are not asking you to go out and evangelize. We are not asking you to be great teachers, although many of you are. We are asking you to hold that Christed Matrix as best you can within your Hearts and within your consciousness.

It is important, because you own your body, your vehicle. And as you grow in your consciousness, and as you work with your energy system -- unifying it, magnifying it, stabilizing it in that 5th Dimension -- the 6th and 7th Dimensional Light Templates that were retrieved are equally important.

The 6th relates to the electro-magnetic field that is around your body and around the Earth. That relates to your mental-emotional body. Thoughts are electrical; emotions are magnetic. So, as you stabilize and create sovereignty in your mental-emotional body, you alter the electrical and the magnetic fields around your body, within the collective consciousness of humanity, and within the perimeter of the Earth. You are that powerful.

[29:09] The 7th Dimensional Light Template is all about the Element of Love. Now, the Element of Love can only exist in dimensions no lower than the 5th Dimension. So, you can see how important you are in stabilizing that frequency within your body, within your consciousness, as clear and stable as you possibly can, because this alters everything in the collective consciousness, whether certain humans are aware of it or not. Eventually, they wake up, and they have a knowing within them. And that knowing within them comes from individuals like each one of you on this call tonight.

I have asked you to come to help me further imprint humans, human consciousness, and seed it in an imprint within the consciousness of every human in a body at this very moment, the Element of Love and Christ Consciousness, so that they, too, can reap the rewards of Spirit that you are experiencing on your Journey.

There is much chaos on your Earth today. A lot of changes are surfacing in all parts of the Earth – in governments, in the way that business is done, money is handled, the value of human life. You see it everywhere. Wouldn't it be wonderful if you could make a difference to each life on the planet! You may not be able to make a difference physically, but you sure can make a difference in their ability to awaken to a different awareness of how they create, how they lead their lives. And that is simply done by being it.

Each and every one of you: Be it! Work on yourself. This year is all about you and how you cultivate that within your body, because you are the body. You are the ones that make the difference. We Masters, the Archangels can surround you, can send Love, can send Light, but we do not have the physical bodies you do. So the receptivity is much greater from one in a body as from one of us, who they perceive as being far above and untouchable.

You know how difficult the Journey can be into transformation. You have to let go of a lot. You have to let go of genetic lineages. You have to let go of patterning that was instilled in you at a very young age or from excruciating pain that occurred in you in your mental-emotional body at some juncture in your life experience. You know how hard it is to be in the denseness.

But as you more stably come into that 5th, 6th, and 7th Dimensions and navigate in those three Dimensions, life becomes joyful, meaningful. And you wake up every morning welcoming the day, instead of dreading it.

[34:00] Now, that Element of Love is much misunderstood. You know, you are very familiar with the elements of the Earth -- fire, water, air, earth energy – and how when you create something you often invoke those elements. And they are important. And sometimes in your creation, you use all four elements, sometimes one or two.

This Element of Love, in the interdimensional planes of creation and manifestation, is present always, with ALL of the elements. It is an element. It is a creative element. It is so much more than an emotion. But in the 3rd dimension, you only resonate or feel it coming from the Heart center, which it is in the Heart, in the Sacred Heart, the Consciousness that is being re-awakened. But it is not an emotion. It's a creative element.

And the more that you stabilize yourself in that 5th Dimension, you are able to navigate 5th and 6th and 7th Dimensions, because they work together, Beloveds. They are not separate; they are unified in their expression. And you begin to draw to you your likeness, your Christed likeness -- in others who resonate in that frequency range. But you draw to you from the planes of the Creative Realms of Source. You draw more of that Light, more of the Grace and the Love that is always there for you to draw more and more and more.

And the more you can stabilize in the frequency range of 5th Dimension, the more you are able to hold that in your body, and your body itself, the physical body, begins to be altered, to change its frequency, to change the way in which the organs and the blood stream and the liquids and the hormones are used within the body. There is more communication and unification in the operation of that exquisite human form.

The neurology is changed and altered tremendously, so you are able to process complexities of thought relating to the nonphysical Realms of Creation and concepts of transformation and unification. Without that wiring, so to speak, in the neurology of the body being amplified and being reconfigured into a different frequency range, it is difficult for you to understand such things as what a Light Template is, what the Element of Love is, what true unification is.

All of that is changing, Dear Ones, because you are able to hold a frequency of Light that you haven't been able to hold since you've been in this body. But that is changing, because you are dedicated to this Ascension process. You are dedicated to the transformation not just of your consciousness, but you are dedicated to the transformation of your physical vehicle into a more Light-filled vehicle, into a 5th Dimensional vehicle.

[38:36] Now, it will not look much different than what you see today. But the operation of that vehicle is much different. You will have a sense of health and well-being, longevity. You get to make choices that you hadn't had the awareness nor the consciousness nor the understanding to make.

So, can you see how valued you are in this meeting this evening, where we gather with intention and purpose, using the Element of Love to imprint all of humanity with this 5th, 6th, 7th Dimensional Light Template, the Element of Love, and Christ Consciousness. As you imprint it and you hold it in your body, all of humanity receives, because you have a body. You are showing the way by being it.....

Now, I started my Journey 2000 years ago to make that difference, to imprint humans with a different awareness. They were limited in their capacity to receive what I had to offer. So I had to wait. And along the way, many of you came to help imprint, as the Journey went on for 2000 years.

This time, this next seven-year sequence, will bring changes that you will be amazed at, because of those who have chosen to take the path of transformation and resurrection. And this is what we are celebrating today as well as imprinting – this giving service, giving from the Heart. We are here to celebrate that transformation and Ascension process into a new state of being in the physical. We are changing the physical! And we are helping humanity to come along the Journey with us.

I am so delighted that you answered my call. As brief as it was, I just said, "Come along with me. Let us help the Earth. Let us help all humans who are struggling and are in chaos." Each one of you can hold that stability of calmness, of certainty, gratitude, and most importantly, Love. It has nothing to do with right or wrong, judgment of what you have done or what you have not done. It is a path of growth and transformation, resurrection out of the 3rd dimension once and for all, leaving it behind in the dense ashes, where it belongs, and forging through into the Light. And, as you do, receiving more and more, holding it stably, integrating it into every cell, every part of your body, and just BEING.

Feel the Joy of that in your Heart.....

Feel the Joy that that brings to your awareness.....

"I AM the Light," you say. And now, you can truly see it.

"I AM the Love."

"I AM the Beauty that Creator created when he created a Christed Planet to reflect every part of Creator: every Light Image, all the consciousness, all states of being an individual Divine Creator who was created in the Image of Prime Creator, and as such, can magnificently create on Earth, as a human, a beautiful individual expression of the Divine."

[45:20] As you travel the rest of this year, it will be a big change in your Journey. As you're tempted to allow negativity to take hold, it's an easy shift, now that you've received this imprint, that you know that those Time Locks have been unlocked that allow you to navigate as the multi-dimensional Being that you are, that you know the Christed Matrix is now resonating from that 5th, 6th, 7th Dimension.

Yes, we have a ways to go, for Earth as its original state was a 12th Dimensional Planet. But think how far you have come!

The biggest step you have had to make as humans is from 3rd to 5th. That was a huge, huge jump that you made in this life. And, therefore, you made the difference for all humans. Hold that in your consciousness consistently and stably. You will reap tremendous awarenesses for yourself individually, and you will help all humans to take up their Path and enjoy the calm serenity of a stable Christ Consciousness. This is what I want for each one of you.....

I thank you for joining me in this service project. I thank you for all that you will do in the next seven years. And you will be amazed at the changes that you can make, just by being that individual Divine Being that you are – nothing more or less but to BE: to Love yourself and navigate in the consciousness of Christ Consciousness.

Blessings, Beloveds, Blessings!

Sit for a moment with me – a moment longer – so that we may join Heart to Heart, Soul to Soul, unified in our dedication to all humanity and to the Earth.....

[Long Pause]

Blessings and Good Night, Beloveds, Blessings!
